

**Allan E Gross**  
**Canada**

Allan E. Gross is a full time orthopaedic surgeon in the Division of Orthopaedics at Mount Sinai Hospital, and Professor of the Department of Surgery at the University of Toronto. He holds the Bernard Ghert Chair in Lower Extremity Reconstructive Surgery. Dr. Gross has published 3 books, 60 chapters and 213 articles of which most are related to bone and cartilage transplantation and revision arthroplasty of the hip. He has also made significant contributions in total hip revision arthroplasty where he has developed bone grafting techniques in combination with special instrumentation and implants.
