

Dr Anders Ekelund

Sweden

Anders Ekelund graduated from Karolinska Institute 1979 and became a consultant in orthopaedic surgery 1990. He completed his PhD 1998 and then specialized in shoulder and elbow disorders with special focus on arthroplasty and trauma. He is a member of the European Shoulder and Elbow Society (SECEC) and the American Shoulder & Elbow Society (ASES). He has been part of the design team for DePuySynthes in developing the Delta Xtend reverse arthroplasty and the Global Arthroplasty portfolio. The Upper Extremity Unit at Capio St Görans hospital is the biggest unit for shoulder arthroplasty in Sweden.
