

DAY 1 - 29.11.2018

Time	Topic	Speaker	Chairpersons
8:30 -10:00	Spine Free Papers & JAM session		
	Transforaminal epidurogram - a new classification	Dr. Palanikumar	
	Correlation of clinico-imaging and histological diagnosis with cartridge based nucleic acid amplification test line probe assay and liquid culture in osteoarticular tuberculosis	Dr. S. Abhimanyu	
	title: low back pain - new insights into an age-old problem.	Dr. Sri Vijay Anand K S	
	Paraspinal muscles and their correlation with the other spinal parameters in lumbar spine an mri analysis	Dr. Saktthi sellayee	
	Management of infections in lumbosacral spine - analysis and outcome	Dr. Subramaniam M H	
	Effectiveness of foramen magnum decompression on syrinx morphology and curve progression in type 1 acm with scoliosis: an indian experience	Dr. Sivaraj. S	
	Is combined anterior and posterior fusion always the norm in dystrophic scoliosis in neurofibromatosis? Clinical and radiological outcomes of dystrophic scoliosis in neurofibromatosis treated with one-stage posterior-only pedicle screw technique.	Dr. Aju Bosco	
	Intraoperative neurophysiological alerts during spine surgery: do they all mean an ongoing neural damage?	Dr.Nishant Sampath	
	Posterior approach in thoracolumbar tuberculosis: a clinical and radiological review of 67 operated cases.	Dr. Tanay prabhoo	
	JAM Sessions		
	Is there an agreement between ASIA impairment scale and Magnetic Resonance Imaging in prediction of neurological recovery in acute traumatic spinal cord injury	Dr. Roop Singh	
	Reduction vs In-situ fusion: Does L5 form a new base and predict need for reduction in high grade spondylolisthesis?	Dr. Arun Kumar Viswanadha	
	Â clinical and radiological outcome following posterior only surgery in thoracic and lumbar spinal tuberculosis - A Prospective randomized control trial between all posterior global reconstruction versus standalone Posterior instrumented stabilization	Dr. Sachlang Debbarma	
	Anterior versus Posterior Surgery in Unstable Traumatic Spondylolisthesis of Axis: A Retrospective review of 31 cases	Dr. Rajdeep Singh Bagga	
	Does paraspinal neurofibroma influence the morphological difference in scoliosis secondary to Neurofibromatosis 1? - A retrospective study	Dr. R.Rajesh	
	Prognostic utility of Magnetic resonance imaging (MRI) in predicting neurological outcomes in patients with acute thoracolumbar spine injury	Dr. Ankith NV	
	Short segment fixation vs.Mccormack scoring in unstable thoracolumbar fractures	Dr. Navdeep Singh	
	Outcome of operative management of tuberculosis of spine(minimum 6 months follow up)	Dr. Viraj Kiritbhai Patel	

	Selective Nerve Root Block for radiculopathy in spondylolisthesis	Dr. Tushar Sawant	
	Epidural Steroid for Sciatica : 34 years study	Dr. Umesh Prasad Choudhary Suman	
	Outcome of posterior lumbar interbody fusion using cages combined with instrumented posterolateral fusion.	Dr. Tej Rudani	
	A retrospective study to find the correct diagnosis of TB Spine nonresponders on ATT	Dr. Rishabh Kumar	
	Functional outcome assessment in different types of thoracolumbar fractures treated with short same-segment pedicle screw fixation - A prospective study.	Dr. Manjunath A N	
	Posterior Vertebral Column Resection (P-VCR) for Severe Rigid Congenital Kyphosis	Dr. Vignesh Mathialagan	
	Comparative study between anterior odontoid screw fixation vs posterior instrumented fusion in the management of type ii odontoid fractures.	Dr. Rajsirish Bs	
	One Breath Count- a gadget free bed side Monitoring tool for Respiratory management in Cervical Cord Injury Patients.	Dr. Dilip Kumar Sinha	
10:00 - 13:00	Orations		
13:00 - 13:45	Lunch		
13:45 - 15:45	APOA Session - Challenges to Young Surgeon		
16:00	Conversation with the mystic		
DAY 2 - 30.11.2018			
Time	Topic	Speaker	Chairpersons
7:30 - 8:30	Paediatrics Free Papers & JAM (9+7)		Dr Lenin Babu / Dr Narasimha Rao
	Ankle valgus deformity following non vascularized fibular bone graft in children	Dr. Deepak kumar	
	Outcome of accelerated ponseti technique in the treatment of idiopathic club foot	Dr. Anand Babu	
	Outcome of dome osteotomy with osteosynthesis for genu valgum deformity in late adolescent and young adults.	Dr. Kuldeep Bansal	
	Revision surgeries in ddh: our experience	Dr. Abhishek S. Bhasme	
	Outcome of posteromedial soft tissue release in cases of resistant and recurrent ctev in ponseti era	Dr. Lakshmana Das S	

	Accelerated Ponseti method - Equally effective as Standard Ponseti method in treatment of idiopathic congenital talipes equinovarus	Dr. Prasan Kumar Jain	
	Evaluation of effectiveness of cyclical pamidronate therapy in childhood Osteogenesis Imperfecta	Dr. Sukumar G. N.	
	Fibular strut graft in non union paediatric fracture neck femur-case series	Dr. Aslam Ahmed	
	Early centralisation and reconstruction in fibular hemimelia	Dr. Sakti Prasad Das	
	JAM SESSIONS		
	Our experience of ponseti's technique in the management of idiopathic club foot - 307 feet in 205 Children	Prof. P.Sridhar	
	Triceps-splitting posterior vs lateral approach in the surgical management of supracondylar humerus fractures in paediatric population : A comparative Prospective study	Dr. Pallav Gupta	
	study the functional and radiological outcome and complications of closed reduction and internal fixation of paediatric diaphyseal fractures of femur with TENS	Dr. Deepak Kumar Mishra	
	Immunomodulation in diffuse pediatric chronic osteomyelitis in malnourished children.	Dr. Tariq Akhtar Ansari	
	A Rare Presentation Of Xanthomatous Lesion In The Cuboid Bone In A 11 Year Old Boy Post Varicella Zoster Infection	Dr. Soma Sundar	
	Correction of angular deformities of knee by 8-plate hemiepiphyodesis	Dr. Swagat Mahapatra	
	Management outcome of children treated with ponseti technique(minimum 2 year follow up)	Dr. Parimal S Prajapati	
8:30 - 10:00	Trauma Free Papers		
10:00 - 11:30	Basic Science Free Papers		
10:00 - 10:05	Effect of Proximal Fibular Osteotomy in Medial Compartment Decompression of Indian OA knees- 40 case series	Prof. M Venkateswara Rao	
10:05 - 10:10	Study of epidemiology and antimicrobial sensitivity of osteoarticular infection in tertiary care hospital	Dr. Ayaz Ali Mir	
10:10 - 10:15	60 month randomised placebo controlled study about efficacy of repeated yearly use of high molecular weight intra articular Hyaluronic Acid in Knee Osteoarthritis	Dr. Santanu Basu Ray	
10:15 - 10:20	Understanding the disaster medicine Meaning & Importance	Dr. Dinesh Sharma	
10:20 - 10:25	Current trends in publication in 3D printing in Orthopaedics	Dr. Abhishek Vaish	

10:25 - 10:30	A comparison between intravenous and local tranexamic acid in controlling blood loss in patients undergoing hemireplacement arthroplasty with bipolar prosthesis - a randomised controlled trial.	Dr. Tohito H Achumi	
10:30 - 10:35	Comparative study of scanning electron microscopic features of knee articular cartilage	Dr. Udayamoorthy	
10:35 - 10:40	Assessment of new teaching module in orthopaedics	Prof. Rajesh Kumar Gupta	
10:40 - 10:45	Diagnostic Values of Various Clinical tests for Subscapularis Tears of Shoulder- A Prospective Diagnostic Study	Dr. Siva Kumar Kotra	
10:45 - 10:50	The Indian Orthopaedic Resident- Do we even know what we are doing? : A comparative study of different resident criterias of various countries	Dr. Ankit Prasad	
10:50 - 10:55	The association of sarcopenia in patients with chronic low back ache - A case control study	Dr. R.Rajesh	
10:55 - 11:00	Relevance of plantar heel spur and its clinical or functional status in patients of plantar Fasciitis	Dr. Anshuman Mishra	
11:00 - 11:05	Efficacy and functional outcome of bone marrow aspirate concentrate injection in oste	Dr. Sudharsana Reddy Palle	
11:05 - 11:10	Vascular nonunions of shaft femur fracture treated by exchange nailing with augmenta	Dr. Manjunath Sangolgi	
11:30 - 13:00	Hand & Upperlimb : Free Papers & JAM Sessions (11+18)		Dr Praveen Bhardwaj / Dr Rex
	Comparative study of functional outcome of prp vs steroid in lateral epicondylitis	Dr.A.D.Samathkumar	
	Functional outcome of early surgical treatment of intercarpal fracture dislocations of wrist	Dr. Pranit Sonawane	
	Comparison of radial head arthroplasty with radial head preservation in complex elbow fracture dislocation	Dr. Shivam Sinha	
	Radiological morphometric study of distal end radius in indian population & co-relation with parameter of standard distal end radius locking plates	Dr. Bushu Harna	
	How efficacious are the pre-contoured volar locking plates in the management of various types of unstable distal radius fractures?- a clinico-radiological study.	Dr. Narendran Pushpasekaran	
	Comparision of open reduction and internal fixation in acute and non union scaphoid fractures vs percutaneous fixation of minimally displaced scaphoid fractures in high demand young manual workersv	Dr. C.P.Pal	
	Is there a still a role for primary hemiarthroplasty in 3 and 4 part proximal humeral fractures?	Mr. Balachandran Venkateswaran	
	Role of cross finger flap in the management of finger tip bony and soft tissue injuries . A prospective study	Dr. Aruljothi	
	Morphometric analysis of scaphoid and influence of screw design and surgical approach in scaphoid fracture fixation. A study in indian population.	Dr. Saikat Jena	

	Worthiness of combined procedure (subacromial decompression along with capsular release) i	Dr.Mohammad Jesan Khan	
	Fracture induced gradient	Dr. Joan Arakkal	
	JAM SESSIONS		
	A Prospective study of humerus intercondylar fracture AO type 13C surgically managed by bicolunar 90-90 plating	Dr. Ashish BC	
	Functional outcome of percutaneous pinning for fractures of proximal humerus	Dr. Venkatesh V	
	Lunate Excision and Scaphocapitate Arthrodesis in Kienbock Disease: Analysis of Various Outcome Measures	Dr. Nikhil Goyal	
	An epidemiological study of congenital deformities of hand at a tertiary care hospital in West Bengal	Dr. Imran Khan	
	Outcome of shoulder abduction by different neurotisation/nerve transfers in traumatic brachial plexus injury - An Emphasis on Brachial plexus Exploration	Dr. Gowrishankar S	
	A prospective study to compare efficacy of local corticosteroid and platelet rich plasma injection for treatment of lateral epicondylitis	Dr. Surendra Singh Yadav	
	Valuation Of Outcomes Of Laterjet Anterior Gleno-Humeral Joint Strengthening Procedure In The Management Of Recurrent Anterior Shoulder Instability	Dr. Rajib Debnath	
	Comparative analysis of intra-articular steroid and NSAID in treatment of primary frozen shoulder: a Randomized control trial	Dr. Varun Singh	
	A Randomised Control Study Comparing The Efficacy Of Triamcinalone Injection Vs Platelet Rich Plasma In Rotator Cuff Tendinopathy	Dr. Mahesh M	
	Hemi-hamate autograft arthroplasty for chronic PIP joint fracture dislocations	Dr. Bayani Anjana Narasimha Reddy	
	Comparative study of open reduction internal fixation and resection arthroplasty in radial head fractures	Dr. Kanav Mahajan	
	A comparative study of conservative versus surgical management of displaced midshaft clavicle fractures	Dr. C.Sushruth	
	Efficacy Of Platelet Rich Plasma Versus Corticosteroid In Treatment Of Lateral Epicondylitis	Dr. Irfan Dandharagi	
	Modified Matched Ulnar Resection For Arthrosis Of Distal Radioulnar Joint In Ra	Dr. Srikanth	
	Functional outcome of Type 23-C (AO/OTA) Distal Radial Fractures (DRF) managed by percutaneous 5-pin fixation.	Dr. Vamsi Krishna Pothineni	
	Outcome of autologous blood injection in the treatment of lateral epicondylitis: A prospective study	Dr. Vikas choudhary	
	Sternoclavicular Joint Tuberculosis: A Series of Sixteen Cases managed conservatively	Dr. Sanjeev Kumar	

	Short term clinical and radiographic results following proximal row carpectomy	Dr. Abhishek Saxena	
13:00 - 13:45	Lunch		
13:45 - 15:15	Trauma Free Papers		
15:15 - 16:15	Paediatrics Free Papers & JAM (9+8)		Dr Abdul Salam / Dr Vignesh Prabu
	Congenital vertical talus " ? Is reverse ponseti Paradigm " our experience from tertiary paediatric institute	Dr. Naveen s	
	Analysis of determinants of successful treatment outcomes for distal forearm fractures in children.	Dr. Darshan M Kapoor	
	Flexible intramedullary nailing versus plate fixation for pediatric femoral shaft fracture " a meta analysis	Dr. V. Srikirana	
	A Comparative study between conservative treatment and closed titanium elastic nailing in management of fractures of shaft of femur in children-our experience	Dr. Suresh Kumar K	
	Outcome of varus derotation osteotomy in perthes disease	Dr. Siddharth Gupta	
	Neonatal septic arthritis in tertiary care hospital in tamilnadu " retrospective study	Dr. Esakki Mjurugan	
	Single Stage Surgical correction of Untreated / Neglected / Resistant / Relapsed / Recurrent / Residual / Neurogenic / Myogenic / Osteogenic / Syndromic Clubfoot with Midfoot Corrective Osteotomy.	Dr. Surbhit Rastogi	
	A Clinical and Radiological Study of Open Reduction and Dega Acetabuloplasty for Developmental Dysplasia of Hip in Walking Age Children	Dr. Santosh Behera	
	Correction of Resistant/Relapsed/Neglected Clubfeet by Differential Distraction with a Simple Unconstrained Ilizarov Construct	Dr. Marikannan Chinnadurai	
	Ultrasonographic evaluation of achilles tendon healing after percutaneous tenotomy in club foot.	Dr. Saurabh Agarwal	
	JAM SESSIONS		
	Comparitive study between rush pins & criss cross k wires in the management of quadratus fracture among paediatric population	Dr. Sathish Kumar T	
	Titanium elastic nailing system (tens) for paediatric tibial diaphyseal fracture (a prospective study)	Dr. Vinit Vivek	
	Observational Study on Impact of Paediatric Foot Pathology and its Management in Ossification of Midfoot Tarsal bones	Dr. Sathish	
	Outcome analysis of treatment modalities of congenital coxa vara	Dr. Pradeep T	
	Dysplasia Epiphysealis Hemimelica (Trevor-Fairbank disease) in a 5 year old male child - a case report	Dr. Makesh Ram Sriraghavan	

	Our experience of percutaneous tenotomy done under local anaesthesia for c.t.e.v (club foot) cases managed by ponseti method in 135 cases (203 feet)	Dr. N.Vinothkumar	
	A Novel method of correction of Coxa Vara	Dr. R G Praveen	
	Age related torsion of lower limbs in normal children	Dr. Abhishek Venkataramani	
16:30	General Body Meeting in Hall 1		

DAY 3 - 01.12.2018

Time	Topic	Speaker	Chairpersons
8:00 - 9:30	IJO Session		
8:00 - 8:10	Writing a paper – Dos and Don'ts	Dr I.K. Dhammi	
8:11 - 8:17	Ethics in publication	Dr. Vivek Trikha	
8:18 - 8:25	Plagiarism – A burning issue	Dr. Bhavuk Garg	
8:26 - 8:35	Types of studies : RCT, Reviews, Meta-analysis, Case Series	Dr. Murali Poduval	
8:36 - 8:45	How to write perfect Introduction and Materials & Methods	Dr Sanjay Keshkar	
8:46 - 8:55	How to write Results	Dr. Ashok Gavaskar	
8:56- 9:05	Statistics used in writing research paper	Dr. Anil K Jain	
9:06 - 9:15	How to write Discussion and Conclusion	Dr. SC Goel	
9:16 - 9:22	Referencing properly	Dr. Rehan Ul Haq	
9:23 - 9:30	Title/abstract, imagings of an original paper	Dr. ZS Kundu	
9:30 - 11:00	Leadership Summit		
11:00 - 11:45	Valedictory Function		
12:00 - 13:30	Spine Free Papers & JAM session (6+13)		
	Efficacy and safety of using single Anterior Approach in sub -axial cervical spinal injury	Dr. Sharif Ahmed Jonayed	
	Instrumented Vs Non Instrumented Anterior Decompression In TB Spine: Long Term Outcome Analysis	Dr. Alok Rai	
	Clinical and radiological outcome of modified mini open and open transforaminal lumbar interbody fusion – a comparative study	Dr. Faraz Ahmed	

	Clinico-Radiological outcomes after Pedicle Subtraction Osteotomy for fixed sagittal imbalance patients : a short term follow up of 21 patients.	Dr. Pramod Dashrath Bhilare	
	Functional and bio-chemical comparison between patients transfused with fresh whole blood and components following major spine surgery -prospective randomized study	Dr. Keerthivasan	
	“The effect of balanced preemptive analgesia on postoperative pain in spine surgery”- a double blinded prospective randomized clinical trial of 100 patients.	Dr. S.Dilip Chand Raja	
	JAM Sessions		
	Pyogenic spondylodiscitis secondary to chronic non healing foot ulcer	Dr. Sumanth Kaiwar	
	Role of surgical decompression in neglected cauda equina syndrome?	Dr. Mohd Rafiq Bhat	
	Muscle fat fascia graft in pedicle screw malposition- a new technique to prevent post operative neurodeficit without revision.	Dr. Suhasish Ray	
	Why not instrumentation for early rehabilitation in spinal tuberculosis ?	Dr. Bipul Borthakur	
	Posterior only approach in cases of caries spine with neurodeficit: A study of the surgical outcome	Dr. Sourav Chatterjee	
	Effect of prophylactic intra-operative instillation of vancomycin powder following spine surgery: a retrospective case control study	Dr. Ayaz Ali Mir	
	Treatment of thoraco-lumbar fractures by short segment pedicle screw fixation with two index vertebral [sspi+2is] screws	Dr. Vinoth Thangamani	
	Diagnostic challenges in spinal tuberculosis	Dr. Sathiyamoorthi Palanisamy	
	Comparative study of interlaminar versus transforaminal epidural steroid injection	Dr. A.D.Samathkumar	
	Failed back surgery syndrome: Outcome of a multidisciplinary rehabilitation protocol	Dr. Deepak Sharan	
	Anterior instrumentation for cervical tuberculosis- our experience	Dr. R J Bharat Kumar	
	“Halo Gravity Traction a panacea in severe rigid spinal deformities” a prospective analysis of 26 patients.	Dr. S.Dilip Chand Raja	
	Title: Decision Making In Cervical Spine Trauma With Ankylosing Spondylitis “ A Guide To Surgical Approach.	Dr. Sri Vijay Anand K S	
13:30	Lunch
